

WINTER TREE IDENTIFICATION CLASS

Join us on Saturday, February 18, 2017 1:30 – 4:30 pm

In three hours you will learn how to recognize more than 20 common trees at Bull's Run and in southwest Ohio; your backyard. We will spend about an hour inside (Church of the Ascension, 2709 McGee Ave., Middletown -- near Bull's Run) and then move outside for field experience and the real thing! Dress in layers for the weather.

This year we will again be led by Backyard Naturalist, John Whittington, along with Bull's Run's current Naturalist, Erin Skimming, and former Naturalist, Nancy Clark, as we learn how to tell one tree from another in the woods and in your neighborhood...in the winter.

Bonus: Includes folder with identification information and diagrams. Many of these identification skills work all year around.

**Begins at 1:30 in the Little Hall of Church of the Ascension
2709 McGee Ave., Middletown, OH 45044**

Caravan to Bull's Run Nature Sanctuary and Arboretum for field work.

**\$20 per person Half price for 2017 members and college students
(Membership form available at www.bullsrn.org)**
